

## FORD FIVE-HUNDRED AND FREESTYLE

The 2005-2006 FORD FIVE-HUNDRED, MONTEGO & FREESTYLE are equipped with a 3.0L engine and one of two transmissions. One easy way to distinguish between the transmissions is the torque converter. The AF-21B converter has two drive slots similar to a rear wheel drive GM torque converter. The CVT FWD/AWD converter has one drive ear on the impeller hub with an internal bushing. Both converters contain a lock-up clutch system of a single-plate design.

DACCO Part Number F-72

The F-72 is used in the 2005-2006 Ford Five-Hundred. These vehicles are equipped with a 3.0L engine and the AF-21B type transmission.

DACCO Part Number F-73

The F-73 is used in the 2005-2006 Ford Five-Hundred and Freestyle equipped with a 3.0L engine and the CVT type transmission.
