

JAGUAR X-TYPE

The 2002-2007 JAGUAR X Type is available with two engine sizes, a 2.5L V-6 and a 3.0L V-6. The transmission is the JF506E 6 speed AWD, All Wheel Drive. Examine the torque converters carefully for the correct application and stall speed.

The 2.5L is equipped with a Dacco part number DA-62. The 3.0L is equipped with a Dacco part number DA-62 LS. In the photographs below notice the minor differences in the impeller fin angle.

The DA-62 for the 2.5L V-6 can be identified by a metal stamp that resembles the small letter "t" and the number 4. " t4" The identification stamp is found on the pilot side of the converter on the raised dome.

The DA-62 LS for the 3.0L V-6 can be identified by a metal stamp that resembles the small letter "t" and the number 3. " t3" The identification stamp is found on the pilot side of the converter on the raised dome.

THE DA-62 & DA-62LS ARE CURRENTLY R&R ONLY. THESE UNITS ARE NOT AVAILABLE FOR IMMEDIATE SHIPMENT. THIS DOCUMENT IS FOR INFORMATION AND APPLICATION INFORMATION ONLY. THESE UNITS MAY HAVE ADDITIONAL APPLICATIONS.
